

CYCAS AND TROPICAL PLANTS FERTILIZER, 1 KG

Code: 1110196

Mineral Organic Fertilizer prevents brown tips

COMPOSITION

NPK (Mg-S)10-5-16 (2-18)+Cu+Fe+Mn+Zn+7,5C

FORMULATION

granulated

PACKS

1000 g box

Charateristics

the formulation has a high content of nitrogen and phosphorus and is enriched with micronutrients (especially Mn), ensuring to cycas and palms the development of a green and luxuriant foliage, as well as a greater resistance to adversities. Another remarkable feature of the composition is the organic nitrogen, which guarantees a slow and gradual feeding.

Period of Use

JAN FEB MAR APR MAY JUN JUL AUG SEP OCT NOV DEC

Flortis®

How to use

one spoon for 20 cm diameter pots, two spoons for 40 cm pots and so on; 50-100 g/m² for plants in the soil, according to their size. Scatter uniformly on the soil surface every 20-30 days, then water.
