

ORGANIC TOMATOES, FERTILIZER 1 KG

Code: 1110634

Mineral Organic Fertilizer

COMPOSITION

NPK (Ca-Mg) 3-6,5-10 10 (10-2-18) + 10C

FORMULATION

pellet

PACKS

1000 g box

Charateristics

it is a fertilizer featuring fully organic nitrogen with natural slow release and a considerable amount of potassium which encourage a correct ripening of tomatoes. Calcium helps to prevent deficiency diseases like blossom-end rot. This fertilizer guarantees abundant crops with sounder and tastier fruits. The origin of the components is fully compatible with organic farming and makes this product ideal to feed plants respecting the environment and its produce.

Flortis®

How to use

scatter uniformly on the soil with a dose of 80 g/m² (two handfuls) at the time of sowing or transplanting, of 40 g/m² (one handful) for planted out plants; then water. For potted plants, scatter on the soil 10 g (1 spoon) for 20 cm diameter pots, 20 g (2 spoons) for 40 cm pots and so on.
