

Flortis®

ORGANIC VEGETABLE ALL-PURPOSE, LIQUID BIOSTIMULANT 500 G

Code: 1110678

PRODUCT WITH SPECIFIC ACTION - BIOSTIMULANT
Liquid extract of lucerne, algae and molasses
(vegetable origin)

COMPOSITION

NK 1.5-7+ 15C with betaine

FORMULATION

fluid suspension

PACKS

500 g bottle

Charateristics

liquid biostimulant based on lucerne, algae and molasses. It doesn't contain raw materials of animal origin. Applied on the plants, during the growing season, it helps the absorption of the nutrients, stimulates the growth of the root and leaf apparatus and the photosynthetic activity. As a result there will be an increase in terms of quality and quantity in the production of flowers, leaves and fruits. Moreover betaine helps the plant to reduce environmental stress like sudden changes in temperature, drought, high salinity and prevents excessive water loss in the cells. Ideal for kitchen garden, fruitbearing, flowering and ornamental plants.
