

Florlis®

SUPPLEMENT FOR CITRUSES AND FRUIT-BEARING PLANTS, 570 G

Code: 1130112

EC Fertilizer aids the fruit setting stage

COMPOSITION

Mixture of micronutrients Fe (0.5) chelated EDTA, Mn (I) chelated EDTA, Zn (0.5) chelated EDTA

FORMULATION

liquid.

PACKS

570 g bottle.

Characteristics

this fertilizer aids the fruits setting and prevents their drop. Its formulation with a basis of zinc and manganese, fully chelated micronutrients essential for the reproduction, helps the plant growth and the full ripening of more fruits. The presence of iron aids the photosynthesis and therefore the greening of leaves. The brown algae, due to their natural composition, act against the fruit drop in fruit-bearing plants, especially citruses.

Period of Use

JAN FEB **MAR** **APR** **MAY** **JUN** **JUL** **AUG** SEP OCT NOV DEC
