

ORGANIC STOP MICRONUTRIENTS DEFICIENCIES, FERTILIZER 100 G

Code: 1130151

EC Fertilizer

Against 6 micronutrients deficiencies : solves iron, copper, manganese, molybdenum, zinc, boron deficiencies

COMPOSITION

Mixture of micronutrients B, Cu, Fe, Mn, Mo, Zn

FORMULATION

powder

PACKS

100 g box

Charateristics

fertilizer based on micronutrients, studied on purpose to prevent and treat the most widespread plant diseases due to nutritional deficiencies or imbalances which arise usually as foliar yellowing or drying, alterations in development, bloom and fructification of plants. Micronutrients are 100% chelated and have a balanced proportion as regards the nutritional needs of the main ornamental and flowering plants, fruit-bearing plants and vegetables. The fertilizer is readily assimilable by foliar or root application, with immediate action. The results are visible in a few days.

How to use

Foliar treatments, dissolve 10 g (one spoon) in 5 litres water and treat the plants with this solution. Soil treatments: dissolve 10 g (one spoon) in 3 litres water and treat about 10 m² with this solution. It is advised to start treatment when the first deficiency symptoms arise, repeating every 15 days till they disappear. As a preventive measure, scatter the product from the early stages of the growth every 20 days.
