

CONCENTRATED LINSEED OIL, 200ML

Code: 1130655

Fortifier strengthens the plant defences - Against scale insect

COMPOSITION

100% linseed oil. Vegetable oil obtained from the machine pressing, filtering and water dilution of the seeds of *Linum usatissimum*. No chemical synthesis processes are involved in production and no GMOs have been used.

FORMULATION

liquid to dilute

PACKS

200 ml pot

Charateristics

the linseed oil helps to improve and strengthen the natural defences of the plants against scale insects. Mixed with copper-based products it enables to reduce dosing by 25- 30% since it increases the average size of the sprinkled drops, reduces the evaporation speed and increases the contact surface. The linseed oil can be used in fruit-growing, horticulture and gardening. It leaves no residues. For edible crops, it is advisable to allow at least 48 hours after treatment before eating the crop.

Flortis®

How to use

dilute 5 ml in 1 litre water, shake well and sprinkle the plant from a distance of 40-50 cm. Preventive action: treat every 10-15 days, from the beginning of bloom until just before the fruit picking. Curative and protective action: treat when infestations arise and, if necessary, repeat 5-10 days after the first treatment.
