

NETTLE BASIC SUBSTANCE, 500 ML

Code: 1134005

100% natural vegetable origin against aphids, mites and codling moths

COMPOSITION

fermented nettle extract (*Urtica dioica*) 100%.

FORMULATION

Liquid to dilute

PACKS

500 ml pot.

Charateristics

it is a product based on nettle (*Urtica dioica*), an active substance present in nature known for its insecticidal and acaricidal properties. It acts against aphids, mites and codling moths. It is applicable to fruit trees (apple, pear, plum, peach, cherry tree, walnut-tree), vegetables (potato, lettuce, cabbage, bean, pea, radish), vine and flowering plants (rose).

Flortis®

How to use

shake well before use and dilute 50 ml of extract in 1 litre of water. Spray the plant from a distance of 40- 50 cm, wetting the entire surface evenly, including the bottom blade of the leaves. Treat every 7-15 days in spring and summer, for a maximum of 5-6 treatments per plant. Interval between the last treatment and the fruit picking: 7 days.
