

ENERGY YELLOW - WATER-SOLUBLE FERTILIZER, 600 G

Code: 1210692

EC Fertilizer for all citruses

COMPOSITION

NPK (Mg-S) 15-7-21 (2-21)+B+Fe+Mn+Zn

FORMULATION

water-soluble powder.

PACKS

600 g box.

Charateristics

water-soluble fertilizer with high effectiveness, suitably studied to ensure a correct development of the plant and an abundant fructification: the high content of nitrogen and potassium and the complete set of micronutrients are a boost of 'Pure Energy', a natural stimulant for oranges, lemon trees, cedars and citruses in general.

Flortis®

How to use

the product can be used dissolved into water, on the soil or through the foliage, and as such directly on the soil.
