

FRISCH, 9 G

Code: 1230400

Cutflowers preserver

FORMULATION

soluble powder

PACKS

9 g envelope - Dispensing box with 100 bags

Charateristics

this product has been studied on purpose to keep cutflowers in vases longer and fresher. It prevents the occurrence of parasites and bacteria in the water contained in the vase, which will thus remain clear and odourless for a longer time.

How to use

dissolve 9 g (the content of one bag) in one litre of lukewarm water and fill the vase with this solution. Only use water mixed with the product.
