

Florlis®

MICE DISACCUSTOMER, 1000 ML

Code: 1230630

ideal for cellars, garages, attics

FORMULATION

microgranulated.

PACKS

1000 ml spreading pot.

Charateristics

The product consists of granules to sprinkle on the ground in order to create a natural barrier against mice and rats and protect houses, kitchen gardens, gardens, sheds, garages etc. It gives off an unpleasant smell to rodents and can create a real olfactory barrier. It is not harmful to animals, people, plants and crops in general.

How to use

To be used in all places where mice are unwelcome or one wants to prevent their presence (houses, kitchen gardens, gardens, sheds, garages etc.). Scatter the product every time one wants to repel mice or prevent their return. Repeat the treatment after rains, irrigations or wash of the premises.
