

MOLES DISACCUSTOMER, 1000 ML

Code: 1230705

ideal for lawns, gardens, kitchen gardens

FORMULATION

gel.

PACKS

1000 ml pot.

Charateristics

It is a special blend of natural essential oils specially formulated to perform a barrier action against moles and coypus and to protect gardens and kitchen gardens. The gel gives off an unpleasant smell to moles and coypus and can create a real olfactory barrier. The special gel composition makes the product water resistant and long-lasting.

How to use

Clean the areas to treat in order to ensure greater effectiveness of the product. Scatter the gel on the soil creating a protective outer edge around the affected area with a dose of 100 ml per m². If necessary, repeat the application several times at 3-4 day intervals.
