

Florlis®

## AFTER BITE ROLL-ON PEN 15 ML

Code: 1331030

With essential oils

### PACKS

Box 15 ml

## Charateristics

natural, soothing and emollient afterbite roll-on pen which relieves the itching sensation in case of bites of mosquitoes, flies, wasps, horseflies, ticks and insects in general, or in case of contact with stinging plants or jellyfish. Its natural components (aloe, camomile, mallow, calendula) and the glycerin aid the decongesting and refreshing action, extending the feeling of relief. It isn't greasy and leaves the skin delicately scented. Without ammonia, alcohol, parabens, allergens, solvents and colouring agents, it is suitable for even the most sensitive skin.

## How to use

rub for a few seconds directly the part concerned, avoiding the eye and mouth contour; if necessary repeat the operation after a few minutes.
