

Florlis®

FOOD MOTH TRAP, 2 UNITS PACK

Code: 1331520

to control food moths in the kitchens

PACKS

box 2 traps

Charateristics

sticky trap containing an attractant for food moths, it acts on Indian Meal Moth, Mediterranean Flour Moth, Cacao Moth, Almond Moth and Raisin Moth. It notifies quickly the presence of insects which nestle in the kitchen cabinets and cause the food infestation. The attractant draws the adult specimens inside the trap where they will be caught for good. The product contains no poison, is unchangeable over time so it doesn't ooze nor smear and has a guaranteed effectiveness of 8 weeks.

How to use

open the envelope taking care to keep it in good condition. Take out one trap and close the envelope again. Clean and degrease the surface concerned. Place on cabinet doors, walls or shelves inside the kitchen furniture. The trap can be used open or closed as well. Replace the trap every 8 weeks or when it is covered with preys. Use one trap per cabinet.
