

EQUISETUM EXTRACT RTU, 500 ML

Code: 1331820

Based on equisetum extract.
Against botrytis and oidium or mildew

COMPOSITION

equisetum extract (*Equisetum arvense*) 1% v/v.

FORMULATION

liquid ready to use

PACKS

500 ml bottle

Charateristics

it is a product based on equisetum (*Equisetum arvense*) or horsetail, a medicinal plant known since ancient times that grows on the edges of fields under crop, along the trenches and the slopes. The equisetum extract is rich in flavonoids, alkaloids and silicates in the form of silica, substances capable of strengthening the plant tissues hindering the development of fungal diseases, in particular mildew or oidium and rot. It also helps the plants to protect themselves from environmental stress and sudden changes in temperature. It can be used both on ornamental plants and on vegetables and garden plants at any time in the production cycle.

Flortis®

How to use

shake well before use and spray the plant from a distance of 40-50 cm, wetting the entire surface evenly, including the bottom blade of the leaves. Preventive action: treat every 10-15 days, from the beginning of bloom until before the fruit picking. Curative and protective action: treat when the infestations appear and, if necessary, repeat every 7-10 days after the first treatment. For edible crops, it is advisable to allow at least 48 hours after treatment before eating the crop.
