

PINE OIL RTU, 500 ML

Code: 1331850

Based on pine oil.
Against scale insects

COMPOSITION

essential pine oil 1% v/v.

FORMULATION

liquid ready to use

PACKS

500 ml bottle

Charateristics

it is a product based on essential pine oil, obtained from the needles of the *Pinus silvestris*, an evergreen from Europe and Northern Asia. Applied to plants, thanks to its antiperspirant action, it helps them to protect themselves from scale insects. It also acts on the eggs laid by the insects, devitalizing them. It can be used both on ornamental plants and on vegetables and garden plants at any time in the production cycle.

Flortis®

How to use

shake well before use and spray the plant from a distance of 40-50 cm, wetting the entire surface evenly, including the bottom blade of the leaves. Preventive action: treat every 10-15 days, from the beginning of bloom until before the fruit picking. Curative and protective action: treat when the infestations appear and, if necessary, repeat every 7-10 days after the first treatment. For edible crops, it is advisable to allow at least 48 hours after treatment before eating the crop.
