

Flortis®

MOSQUITO COIL SEPARATOR, 1 UNIT PACK

Code: 1334300

to separate coils without breaking them!

PACKS

Box 1 separator- the mosquito coils are not included in the package.

Charateristics

the practical Flortis coil separator is an Italian patent which allows to quickly separate the couple of coils without breaking them. It is suitable for all Flortis coils and most of the ones made in Italy.

How to use

insert the two self-adhesive magnets into the provided slots and place the pair of coils in the base. It is possible to use the base and the lid as ash collecting containers. Simply separate the lid from the base, place the two pieces with the magnet facing upwards and lay the metal support, included in the coil packings, finally place the coil. The magnet ensures the stability of the coil also for use on lawns or uneven surfaces. The ash will fall on the containers, thus avoiding to dirty.
