

DOGS AND CATS DISACCUSTOMER, 1000 ML

Code: 1337230

ideal for lawns and gardens

FORMULATION

microgranulated.

PACKS

1000 ml spreading pot.

Charateristics

the product naturally prevents the presence of dogs and cats in lawns and gardens, breaking the bad habits of your pets. It can be used in all places where dogs and cats are not welcome (gardens, campsites, flowerbeds etc.). It is based on essential oils whose fragrance is unpleasant to dogs and cats. The product is not dangerous to people, animals and plants and is not harmful to the environment if used properly.

How to use

scatter the affected area with about 50 g every 10 m². If necessary repeat the treatment after 3-4 days. The effectiveness lasts about one week: rains and abundant irrigations can reduce the effectiveness of the treatment.
