

Florlis®

ORGANIC HORN MEAL, FERTILIZER 2.5 KG

Code: 2110205

Nitrogenous Organic Fertilizer N 10

COMPOSITION

N10

FORMULATION

flakes

PACKS

2.5 kg sack

Charateristics

long-lasting nitrogenous organic fertilizer, obtained solely from residues of animal horns and nails, properly selected and ground in order to show very thin granules, which are better distributed and assimilated by the soil.

How to use

the product must be scattered on the soil or mixed with the substratum at the time of sowing or repottings. Doses vary according to the kind of the plant.
