

Floritis®

FERT STALL - PELLETED MANURE, SOIL CONDITIONER 5 KG

Code: 2110300

Mixed Composted Soil Conditioner

FORMULATION

pellet.

PACKS

5 kg sack.

Charateristics

high-quality soil conditioner, based on manure obtained from fine certified raw materials which guarantee the supply of useful substances with high agronomic value. The organic substances used contain high amounts of humates which can improve the fertility and the soil structure and offer an excellent backing of the root activity. Very good mixed with the substratum at the time of repotting. Particularly suitable in horticulture before transplanting and sowing and at the stage of planting vineyards and orchards.

How to use

scatter uniformly on the soil with a dose of 150-200 g/m². One handful is about 50 g.
