

GREEN CORRECTIVE FERTILIZER, 5 KG

Code: 2110650

Mineral Simple Fertilizer

COMPOSITION

Nitrogenized mixed salts (N) 15 + iron (Fe) 2 (Mg-S) (2.5-45)

FORMULATION

granulated..

PACKS

5 kg sack.

Charateristics

it is a fertilizer rich in nitrogen, iron, magnesium and sulphur, performing three actions at the same time: feeding, greening and anti-moss. The nitrogen feeds the lawn and guarantees its vegetative growth. The iron helps to prevent the formation of moss and to treat ironinduced chlorosis. The magnesium stimulates the photosynthetic activity ensuring a quick greening action. The sulphur acidifies the soil improving the growth conditions of the grass. Ideal for lawns, hedges and gardens.

Florlis®

How to use

feeding action, scatter 50 g/m²; then water; greening action: scatter 50 g/m²; then water; anti-moss action: scatter 25 g/m² for preventive treatments, 50 g/m² for curative treatments; then water.
