

THE PLANT THIRST- QUENCHER TEKNO IRRIGATION KIT - BASE + REFILL

Code: 5400430

can be considered as a complete irrigation system

PACKS

1 base + 1 refill

Charateristics

this product can be considered as a complete irrigation system adaptable to containers of 5 to 5000 litres water, allowing therefore to water balconies, flowerbeds, flower boxes and pots for several weeks. The kit includes 6 drippers, 4 metres of pipe, 5 tees and one fitting for the pail. The pail contains 12 litres.

How to use

install the kit following the instructions on the back of the blister. Push the fitting into the hole and connect the pipe. Cut the pipe and insert it into the tees linking the drippers to their end. Set the output flow of the water and thrust the dripper into the soil.
